XIII SPANISH SOCIETY CONGRESS OF ENVIRONMENTAL HEALTH AND IX NATIONAL CONFERENCE OF ENDOCRINE DISRUPTORS

PRECONGRESSUAL WORKSHOPS

1.- The analysis of risks: the case of waste in Portman’s bay.

2.- Reutilization of regenerated waters.

3.- The regulation of control plagues service. The technician in charge. The safe use of Biocides.

4.- Hospital environmental biosecurity.

5.- Regulation of biological pollutants.

SCIENTIFIC PROGRAM of XIII ENVIRONMENTAL HEALTH CONGRESS

Table 1.- “De aquis”. Emergent pollutants of water.

- Determination of emerging compounds in a hospital effluent.
- Drug residues and their metabolites in water. Sanitary risks.
- Water safety plans and the evaluation of risks against emergent pollutants.

Table 2.- “De locis”. The environmental management in sanitary centers.

- The way from the Environmental Management to the Corporate Social Responsibility.
- Environmental biosecurity in controlled environment rooms, within hospital areas.
- Epidemiological vigilance, prevention and control of legionella in hospital.
Table 3.- “De aeribus”. Health, grains of pollen and fungal spores who roam the air

- Polinosis, a morbidity in increase: The importance of aerobiological inventories in the clinical practice.
- Intradays patterns of atmospheric pollen distribution and sanitary applications.
- Aerobiological networks and their link with sanitary policies: current situation.
- Importance of knowledge of atmospheric spores in urban areas and its relation with asthma morbidity.

Table 4.- Spanish Society of Public Health-Spanish Society of Environmental Health. Management and risk communication.

- Agreement document about prevention from metilmercury exposition in Spain.
- Sanitary-environmental criteria to consider in the projects of fracking in Spain.
- Risk communication in crisis.

Closing Conference: “The evaluation of air quality in the frame of European Union and its repercussion in Spain”.

**SCIENTIFIC PROGRAM of IX CONFERENCE OF ENDOCRINE DISRUPTORS, Thursday 25th of June**

10:00 – 10:10 Conference presentation

10:10 – 11:00 Opening Conference: exposition to Endocrine Disruptors and its effects on children.

11:00 – 12:00 1st Session: Why persistent organic pesticides continue being a problem?

12:00 – 12:20 COFFEE
12:20 – 13:20  2nd Session: Which is the state of the matter on the elimination of industrial persistent compounds?

13:20 – 14:30  3rd Session: 2 examples of prevalent compounds: BPA and Ftalatos.

14:30 – 16:00  LUNCH

16:00 – 17:00  Communications of Endocrine Disruptors.
